About Me

Looking forward to a dynamic role in software development where I can leverage my expertise in modern web technologies to create innovative and efficient solutions. Passionate about exploring emerging frameworks, enhancing development processes, and continuously learning new tools to drive technical excellence. Focused on creating efficient and user-friendly applications that improve performance and usability.

Technical Skills

Category	Skills
Frontend Technologies	HTML, CSS, Bootstrap, JavaScript, React.js, Next.js, Typescript, AngularJS, React Native
Version Control	Git, GitHub, GitLab
UI/UX & Design	Responsive Web Design, User Experience Optimization

Work Experience

Software Developer

Proplegit , Ahmedabad, India | June 2025 – Present

- Developed scalable web applications using React.js and Next.js, following modern UI/UX best practices.
- Built responsive, cross-platform interfaces to ensure consistent user experience across devices.

- Developed mobile applications using React Native, gaining hands-on experience in cross-platform app development.
- Implemented CI/CD pipelines to automate code deployment and streamline Git-based workflows.
- Optimized applications for page speed, performance, and SEO, improving load times and search visibility.

Frontend Developer

Tibicle, Ahmedabad, India | April 2024 – April 2025

- Developed React.js and Next.js applications with modern UI/UX standards.
- Implemented responsive web designs for cross-platform compatibility.
- Collaborated with UI/UX designers to translate mockups into functional web applications.
- Worked closely with backend developers to integrate APIs and enhance system performance.
- Utilized Git for version control and workflow management.
- Troubleshooted and resolving frontend issues for seamless performance.

Frontend Developer

Tec Mantras, Ahmedabad, India | April 2023 – April 2024

- Enhanced application efficiency by troubleshooting and debugging key issues.
- Designed and implemented user-friendly interfaces for improved user experience.
- Worked on converting customer requirements into technical use cases and functional designs.

Junior Frontend Developer (Internship)

Sapphire Software Solutions, Ahmedabad, India | August 2022 – April 2023

- Developed a school management system using AngularJS.
- Gained hands-on experience in frontend development, state management, and UI design.
- Collaborated with team members to optimize software performance.

Projects

Project 1
